

Volvo 960 limousine For Sale

The ultimate must have vehicle for the Volvoist. Launch your own special event livery service. Weddings, 30th birthday parties, retirement parties, debutante balls, bachelorette parties, funeral car and the like. (One of our members has a Volvo hearse, should you require one.)

This baby runs well, maintained and service by Dave West and his fleet of mechanics. As you can see, the accompanying photos show it's been kept in climate controlled storage. The Limo could use detailing in and outside before returning to duty. Otherwise, it is ready to go.

It's rumored (thinly) the limo was used to ferry ABBA about¹. The surround sound audio system makes tunes rock.

Dave needs the room. His wife said it has got to go, but only to a good home. So help save Dave's marriage by making Dave an offer he cannot possibly refuse.

The Volvo Limo only needs are cosmetic. Delivered with a full tank of gas and an ABBA CD, or bring your own. Make Dave's wife happy as she needs a spot to park her Kia. Time is of the essence.
