

The Virginia Reel, or Wheel, is a drive through picturesque western Virginia Blue Ridge mountains on Friday June 9th. This is wine country. Stops along the way are plentiful.

This is a must see and must do event...

This is a trip like none other..

Walk through the one-of-a-kind tunnel. The Blue Railroad Ridge Tunnel was constructed between 1850 and 1858 beneath Rockfish Gap in the Blue Ridge Mountains of central Virginia. Coolant moist. Very refreshing. A "good" flashlight is a must... no trains.. except ghost trains.

All you deep south volvoists, this is your chance to tour The best of the Blue Ridge (Virginia) like never before possible.

You do not have to commit to the whole tour. Join up anywhere anytime along the way. Just let us know you'll be joining up. Tune your FRS radio Channel 11 to zero in on the caravan.

See attached flier. (two of them)

RSVP Rick Larson.. larsnrjk@gmail.com if you think you are coming.

Accommodations can be booked at the tour's final destination. See flier.

You have questions, contact me.

Bob Sepe
